

## EVM Machine Demonstration

### REPORT

On September 25, 2024, a live demonstration of the Electronic Voting Machine (EVM) was conducted at HPT Arts and RYK Science College, Nashik. This event, organized under the guidance of the District Collector and the District Election Officer, aimed to enhance electoral literacy by educating students and the public about the EVM's operation and functionality. The college campus hosted an EVM demonstration vehicle, featuring a large digital screen that provided detailed information on the machine's use and security.

The demonstration, part of the district-wide voter awareness initiative, showcased the EVM Machine Van, which arrived at the college with the slogan "Not just a machine, but the bulletproof shield of your vote". This message emphasized the security and reliability of the EVM system, reinforcing the importance of a transparent voting process. Nodal Officer Dr. Kailas Sanap and the college principal, along with other organizers, were present to guide students and answer questions, symbolizing the significance of such events in building informed, confident voters.

The EVM Machine Van was stationed in front of the college's Life Sciences Building from 11:00 AM to 2:00 PM. During this period, students engaged actively with the demonstration, closely observing the EVM and gaining hands-on experience. This opportunity allowed them to understand the voting process better, demystifying the technology for first-time voters and encouraging their future participation in the democratic process.

Such demonstrations are vital steps toward promoting electoral literacy, especially among young people, as they foster a sense of trust and transparency in the electoral system.
